about the harvest

It was our first vintage that we used 100% of our own fruit. We controlled the production by leaving only one bunch/bearer, to try and optimize ripeness.

Yield: 6t/ha

Balling Harvested: 25° Balling

in the cellar

We split our fermentation by using open tanks and pump-over fermenters. Some of the grapes only spent a week on the skins, while others spent almost 4 weeks. The idea is to achieve a very complex and versatile shiraz. The wine spent 12 months in 300l barrels, of which 20% was in American oak.
