in the cellar

The grapes were carefully selected over the sorting table. The grapes had cold maceration for 2 days in stainless steel and open tanks. The juice was pumped over and the cap punched down three to four times a day. The juice was left on the skins for 14 days after fermentation. Malolactic fermentation and ageing took place in 300L French Oak barrels, 35% new wood, 50% 2nd fill and 15% 3rd fill.
